

Eurotechnology Group of Companies.

The Eurotechnology Group of Companies has ongoing Inspection/NDT and Third Party Surveillance Contracts in South America, United States, Japan, Middle East, Far East, Scandinavia, Europe and the United Kingdom. Due to continued growth and expansion of the Range of Services we have current vacancies for the following personnel:

Plant Inspectors:

We are seeking suitably qualified and competent personnel with an appropriate Inspection/NDT background and formal qualification in Plant Inspection. Personnel should have wide experience in implementing International Standards and witnessing Inspection/NDT applications. Verifiable reporting skills are necessary. Applicants should be able to demonstrate a minimum of ten years experience.

Third Party Surveillance & Monitoring:

We are seeking suitably qualified and experienced personnel to carry out detailed Technical audits on Steel manufacturing facilities worldwide. Relevant experience in the formal witnessing of mechanical testing facilities together with an in-depth knowledge of Inspection/NDT applications is necessary. Applicants shall be required to demonstrate a minimum of ten years relevant experience.

Inspection/NDT Personnel.

Site Supervisors:

We are currently seeking Personnel with relevant technical qualifications and supervisory/management experience to supervise Inspection/NDT Operations in the Middle East. The successful applicant shall be required to demonstrate relevant supervisory experience.

We are seeking suitably qualified and experienced Inspection/NDT personnel for the following activities:

Tubular Products:

Personnel shall be competent and qualified to PCN Level 2 or equivalent in MPI and DPI as a minimum with a working knowledge of UT thickness gauging. The applicants shall be required to demonstrate a minimum of five years relevant experience in the inspection of OCTG and Rotary Drillstring equipment.

Structural Surveys both Offshore & Onshore:

Personnel shall be competent and qualified to PCN Level 2 or equivalent in UT, MPI and DPI or RT and MPI as a minimum. Applicants will be required to demonstrate a minimum of five years relevant experience.

Rope Access Personnel:

Personnel shall be competent and qualified to IRATA level 2 or 3. Applicants shall be required to demonstrate a minimum of five years experience in the application of Inspection/NDT methods using Industrial Rope Access Techniques in the Petrochemical or Refining Industry.

Lifting Equipment Surveys:

Personnel shall be competent and experienced in the Inspection of Lifting Appliances in the Oil & Gas Industry both Onshore and Offshore.

Applicants should, in the first instance, send a current C.V. together with copy certification demonstrating their competence and experience to: personnel@euroincon.com
